

EURICPA
European Intelligent Cash Protection Association

Standardisation in Europe

CHAIRMAN

David Milner (Head of Sales & Marketing SPINNAKER)

Who are we?

◆ We are **EURICPA**, the

EURopean **I**ntelligent **C**ash **P**rotection **A**ssociation

... gathering all European manufacturers covering the full range of secure cash transportation by neutralization technologies using an indelible dye

◆ We currently gather all established European manufacturers of alternative technologies matching our selection criteria and welcome any new compliant applicant:

- products are trusted/certified for general CIT in at least one European country
- technology is dye-based
- staining is irreversible and easily identifiable

BOARD MEMBERS

Barbro Wijkander (Sales & Marketing Manager SQS)

Peter Gehrler (Managing Director GEHRER)

Bart Milissen (General Operations Manager Europe 3SI)

GENERAL SECRETARY

Florence Gras (EURALIA)

Ongoing objectives

- ❖ Work with parties involved at the European level such as European Banking Federation, Euro Cash Users Group...
- Consult with the ECB to ensure that future € series will be compatible with our already widely spread dye technologies
- Work closely with ESTA on common objectives.
- Encourage harmonisation of CIT in the Services Directive.
- Coordinate and assist EURICPA members involved with the CEN 263 Working Group 4 standardization initiative
- Work with European Payment Council in reducing risk and cost.

Our position regarding the European Services Directive

- ◆ We welcome most standardization initiatives which reduce our costs and enable us to serve our clients more effectively. There are potential aspects of this in the European Services Directive:
 - Uniform Homologation
 - Create a level playing-field in Europe
 - ◆ Harmonise CIT
 - ◆ Permit the use of technology throughout Europe
 - ◆ Reduce costs, greater flexibility
