TRACKING TECHNOLOGIES

DATA PROTECTION REGULATION

REGULATORY COMPLIANCE

MIDAS NOUWENS
ASSISTANT PROFESSOR

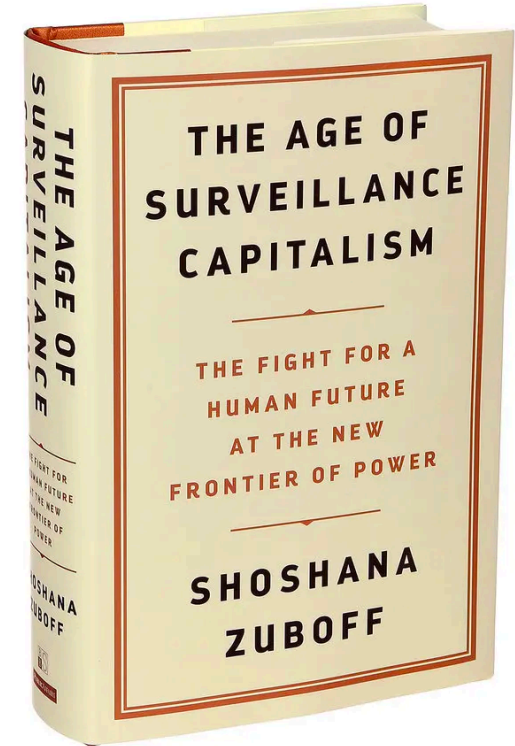

MAIN TRACKING TECHNOLOGIES (WEB, MOBILE, IOT)

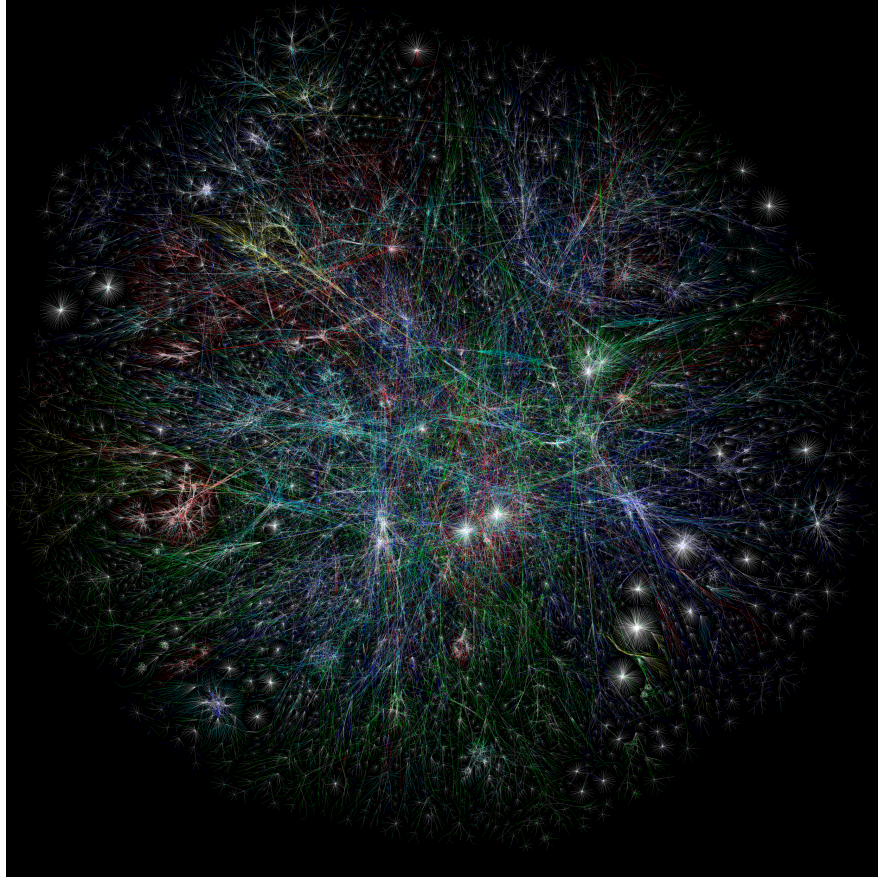

Tracking is the workhorse of surveillance capitalism. Without it, the vast wealth and power of large digital platforms would not be possible.

- IP address
- Cookies
- Fingerprinting
- Tracking pixels
- Software Development Kits ('plug-and-play' services)
- (Coming soon: FLoC, Federated Learning of Cohorts)

identification + segmentation => targeting

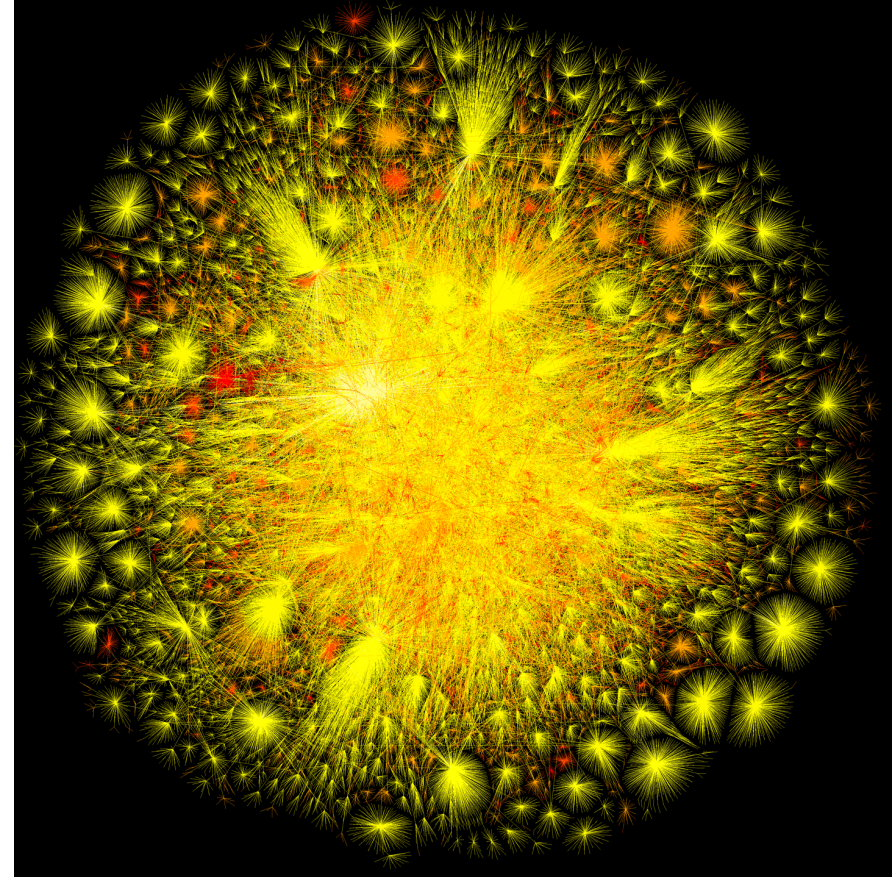

IP ADDRESS

The internet in 2003

<https://www.opte.org/the-internet>

The internet in 2010

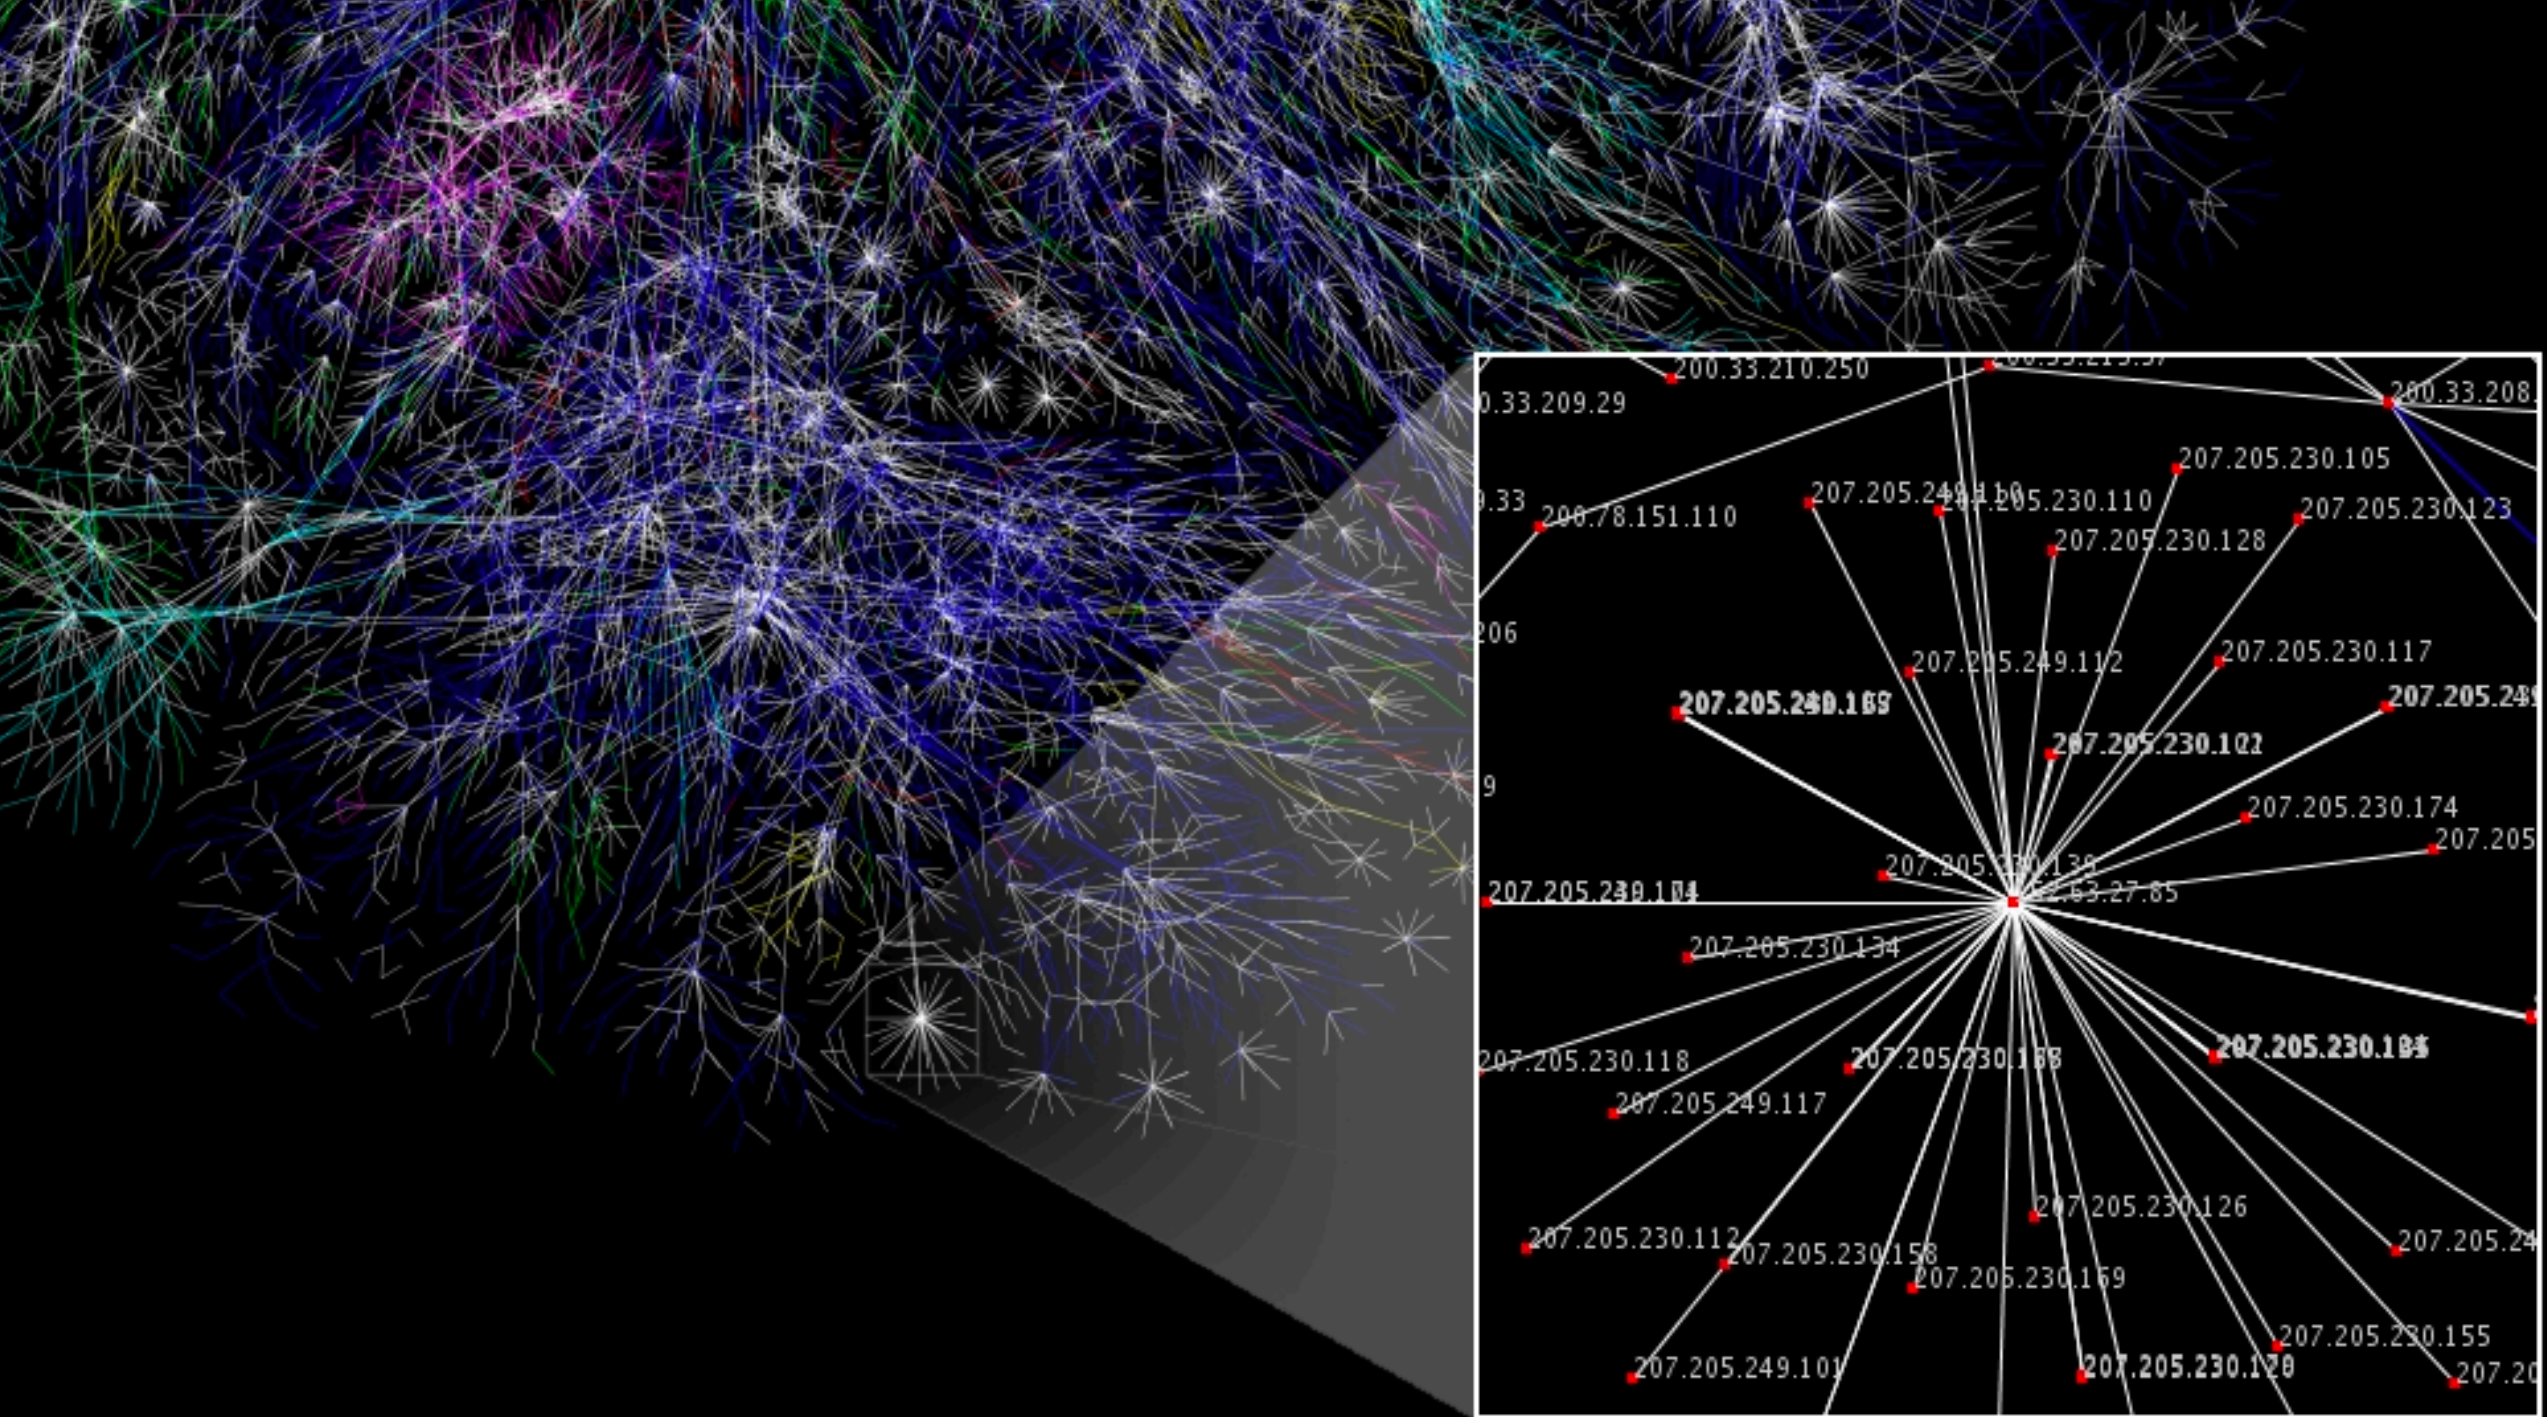

SCHOOL OF COMMUNICATION AND CULTURE

IP ADDRESS

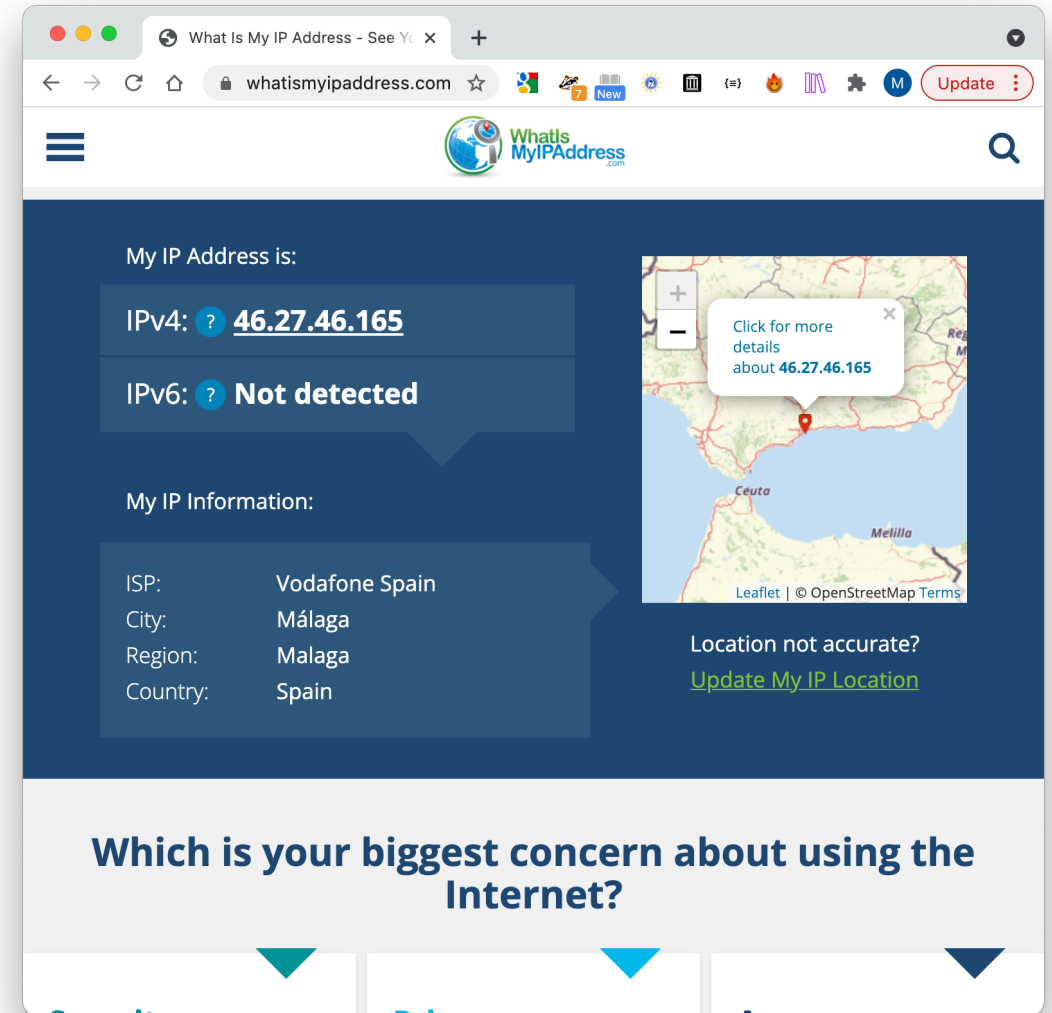

85%+ of users retain the same IP address for more than a month

70% of users retain it for more than 2 months

2% of users retain it for more than 100 days

Websites can use it to identify:

- where in the world visitors are coming from
- a particular user, so they can track
 - how many times you visit their website
 - how long you stay on their website

Mishra, V., Laperdrix, P., Vastel, A., Rudametkin, W., Rouvoy, R., Lopatka, M.: Don't count me out: On the relevance of IP address in the tracking ecosystem.

COOKIES

A file with data that is saved and read by a website on your computer

Can contain any information

Invented in 1995 to save information from a user between website visits

- shopping cart
- language settings

Syntax of the Set-Cookie HTTP Response Header:

```
Set-Cookie: NAME=OPAQUE\_STRING \  
    [; expires= ] \  
    [; path=] \  
    [; domain=] \  
    [; secure]
```

Syntax of the Cookie HTTP Request Header:

```
Cookie: NAME=OPAQUE\_STRING *[, NAME=OPAQUE\_STRING]
```

Original proposal for the cookie specifications made to a mailing list by Lou Montulli in 1995

COOKIES

The screenshot shows a web browser at the URL `esta-cash.eu/events/valencia-spain-2021/`. The website content includes the ESTA logo, navigation links, and event details for "CASH IS COOL" from October 24 to 26, 2021, in Sevilla, Spain. The browser's developer tools are open, showing the Application tab with the Cookies section selected. The Cookies table lists various cookies, including session cookies like `__Secure-3PSIDCC` and `__Secure-1PSID`, and a persistent cookie `SID`. The selected cookie `SID` has a value `DAhwWRaCz...`. The interface also shows sections for Storage (Local Storage, Session Storage, IndexedDB, Web SQL) and Background Services.

COOKIES

First party cookies:

Cookies that are placed by the website domain you are visiting

Third party cookies:

Cookies that are placed by other services that are used by the website you are visiting.

Only the domain (e.g., esta-cash.eu) that created the cookie can read and edit the content

With the transition from web 1.0 to web 2.0, third-parties started to play a more important role in tracking. If multiple websites use the same third-party service, this service can use cookies to track your cross-website behaviour

Some cookies are used to authenticate users, helping ensure that only the actual owner of an account can access that account. For example, cookies called '**SID**' and 'HSID' contain digitally signed and encrypted records of a user's Google Account ID and most recent sign-in time. The combination of these cookies allows us to block many types of attack, such as attempts to steal the content of forms submitted in Google services.

Google to 'phase out' third-party cookies in Chrome, but not for two years

The browser battles are about privacy more than marketshare

By Dieter Bohn | @backlon | Jan 14, 2020, 11:00am EST

FINGERPRINTING

Data collected to (probabilistically) identify a specific device

Data includes device model, screen resolution, OS, preferred language, fonts installed, plugins or extensions installed, how you process graphical content, etc

Powerful because of the combination of all this hard to change information: triangulation + stable

Table 1. Example of a browser fingerprint.

Attribute	Source	Example
User agent	HTTP header	Mozilla/5.0 (X11; Linux x86_64) AppleWebKit/537.36 (KHTML, like Gecko) Chrome/64.0.3282.119 Safari/537.36
Accept	HTTP header	text/html,application/xhtml+xml,application/xml;q=0.9,image/webp,image/apng,*/*;q=0.8
Content encoding	HTTP header	gzip, deflate, br
Content language	HTTP header	en-US,en;q=0.9
List of plugins	JavaScript	Plugin 1: Chrome PDF Plugin. Plugin 2: Chrome PDF Viewer. Plugin 3: Native Client. Plugin 4: Shockwave Flash...
Cookies enabled	JavaScript	yes
Use of local/session storage	JavaScript	yes
Timezone	JavaScript	-60 (UTC+1)
Screen resolution and color depth	JavaScript	1920x1200x24
List of fonts	Flash or JS	Abyssinica SIL,Aharoni CLM,AR PL UMing CN,AR PL UMing HK,AR PL UMing TW...
List of HTTP headers	HTTP headers	Referer X-Forwarded-For Connection Accept Cookie Accept-Language Accept-Encoding User-Agent Host
Platform	JavaScript	Linux x86_64
Do Not Track	JavaScript	yes
Canvas	JavaScript	Cwm fjordbank glyphs vext quiz, ☺ Cwm fjordbank glyphs vext quiz, ☺
WebGL Vendor	JavaScript	NVIDIA Corporation
WebGL Renderer	JavaScript	GeForce GTX 650 Ti/PCIe/SSE2
Use of an ad blocker	JavaScript	yes

A browser window showing the AmlUnique website. The address bar displays `amiunique.org/fp`. The navigation bar includes links for AmlUnique, My fingerprint, My history, My extension, Global statistics, FAQ, Privacy policy, and a More dropdown.

My browser fingerprint

Test the privacy leakages of your ad-blockers.

[Take part in the experiment](#)

Are you unique ?

Yes! You are unique among the 4451335 fingerprints in our entire dataset.

The following informations reveal your OS, browser, browser version as well as your timezone and preferred language. Moreover, we show the proportion of users sharing the same elements.

OS	Browser	Browser version	Timezone	Language
		 v93		
9.11%	43.52%	1.09%	12.65%	79.13%

Similarity ratio duration : ☐ 7 days ☐ 15 days ☐ 30 days ☐ 90 days ☒ All time

PIXEL TRACKING

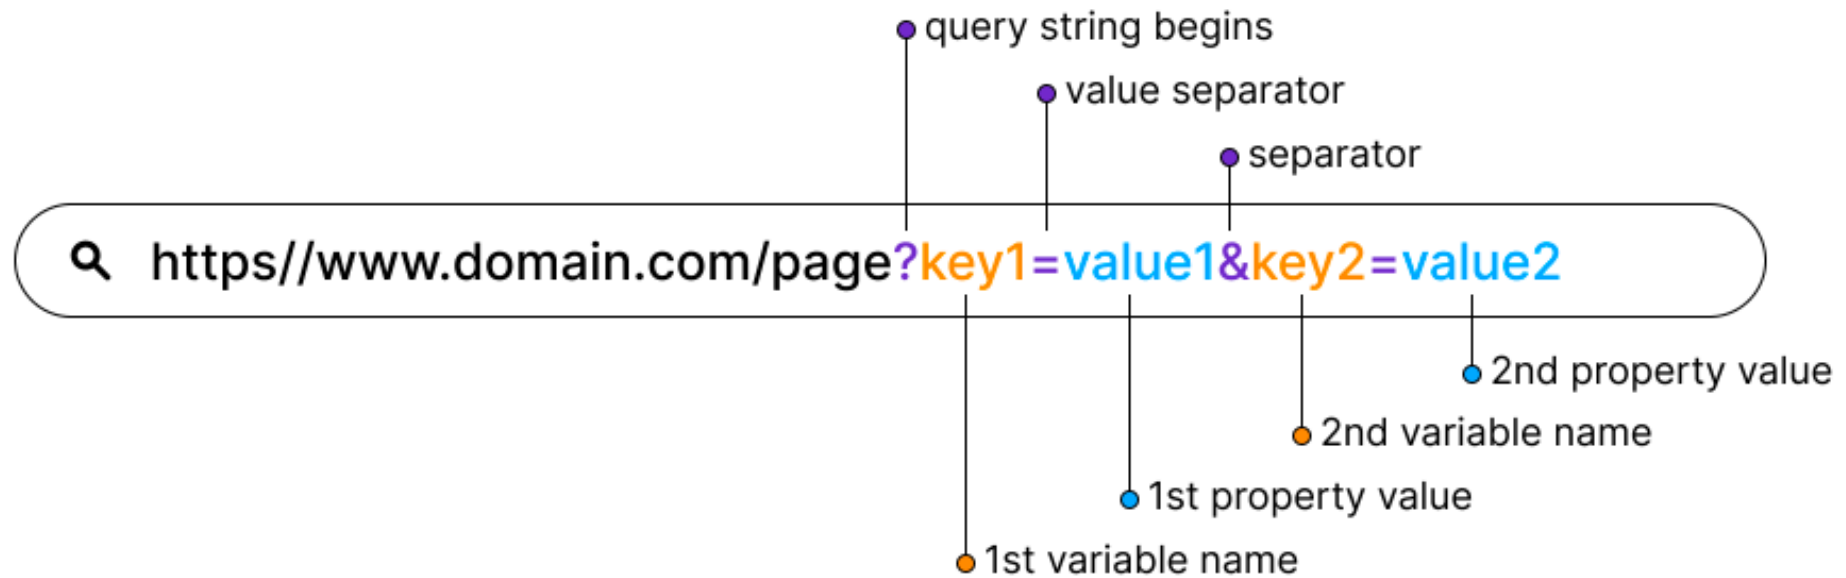

A tiny, 1x1 pixel image that is loaded when you visit a website or open an email. It's often camouflaged with the background colour or made transparent, so it is impossible to see.

Can be used to send information & kickstart code execution

Used to get information such as:

- OS
- Device (mobile, laptop, desktop)
- Type of browser
- Screen resolution
- Time it was opened
- Your actions during the session
- IP address

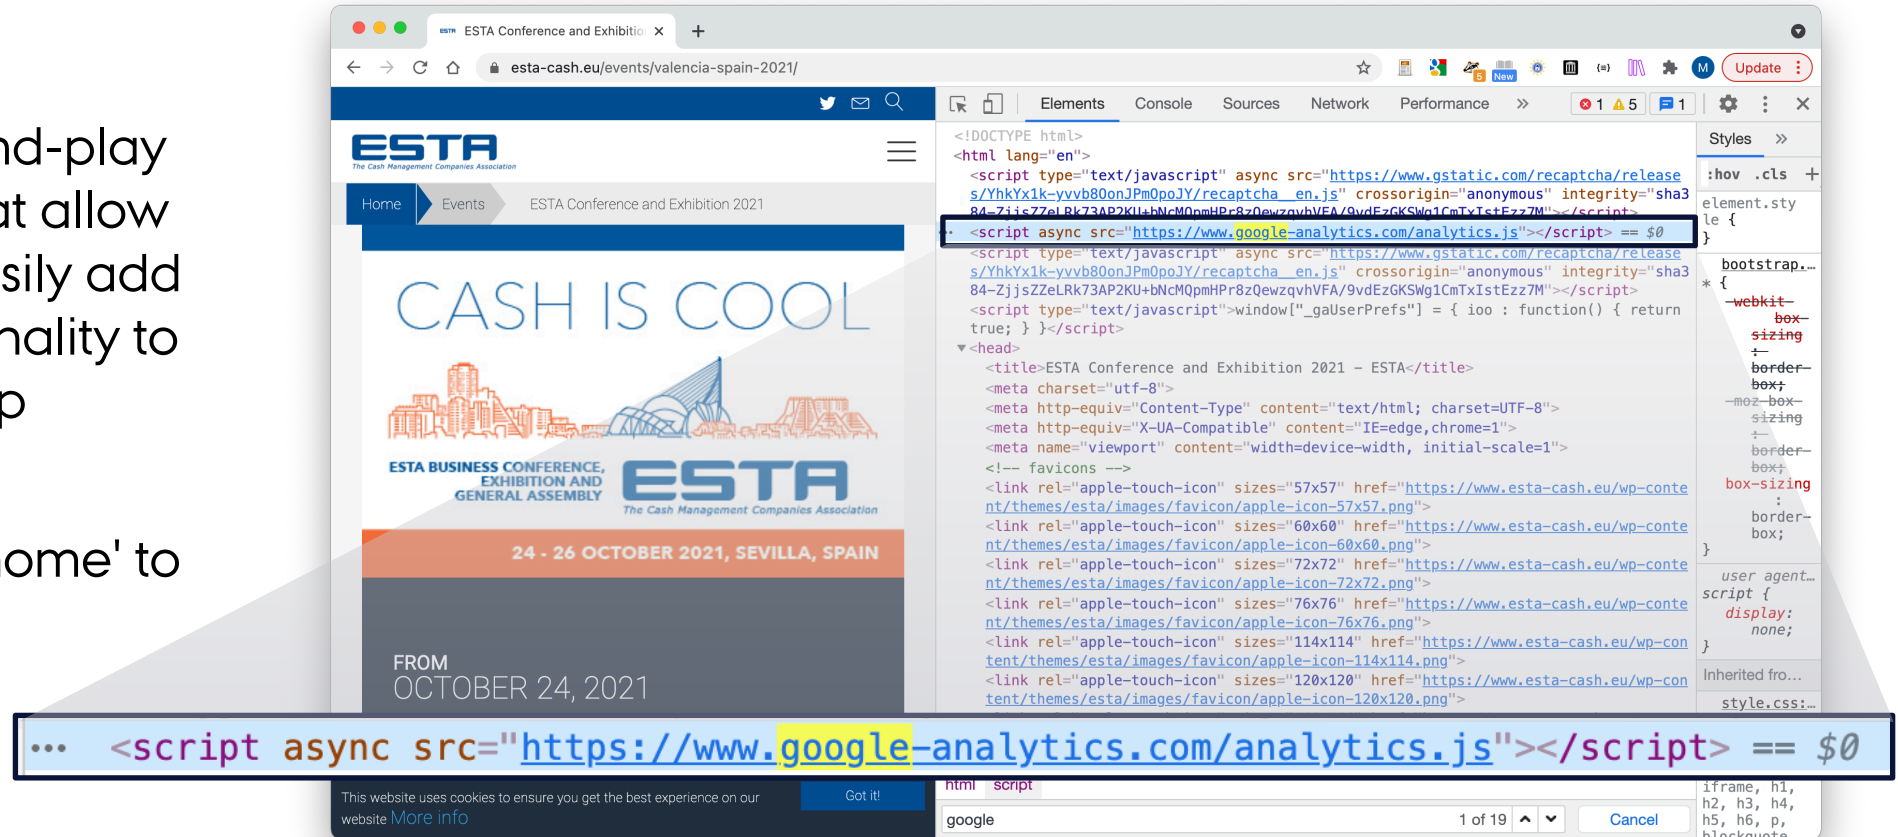

```
  
<!-- End Alexa Certify Javascript -->  
" == $0
```

SOFTWARE DEVELOPMENT KITS

SDKs are plug-and-play code libraries that allow developers to easily add common functionality to their website/app

They often 'call home' to their developers

FEDERATED LEARNING OF COHORTS (TBD)

Instead of many services
accessing tracking data to
segment users,

Google will segment you
'locally' and signal that
information to advertisers

Less 'raw' data in the
world, more centralisation

Federated Learning of Cohorts (FLoC) is a new way for advertisers and sites to show relevant ads without tracking individuals across the web. FLoC was developed with the idea to protect individuals' privacy by placing them in a large crowd — a cohort — of thousands of people with similar recent browsing activity without any of them being individually identified.

REGULATION: EPD & GDPR

ePrivacy Directive (2002/2009)

‘Member States shall ensure that the **storing of information**, or the **gaining of access to information already stored**, in the terminal equipment of a subscriber or user is only allowed on condition that the subscriber or user concerned has **given his or her consent**, having been provided with clear and comprehensive information, in accordance with Directive 95/46/EC,

General Data Protection Regulation

(11) ‘consent’ of the data subject means any **freely given, specific, informed and unambiguous** indication of the data subject’s wishes by which he or she, by a statement or by a clear affirmative action, signifies agreement to the processing of personal data relating to him or her;

Freely given: You are not unduly influenced in your decision

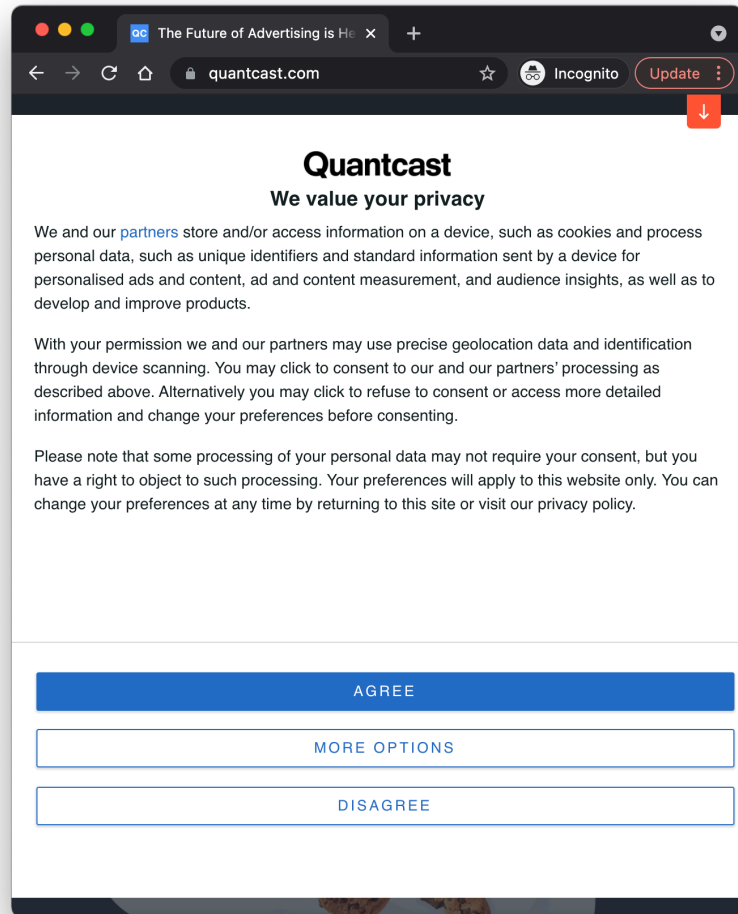

Specific: You have granular choices

Informed: You have enough information to know what you are deciding about

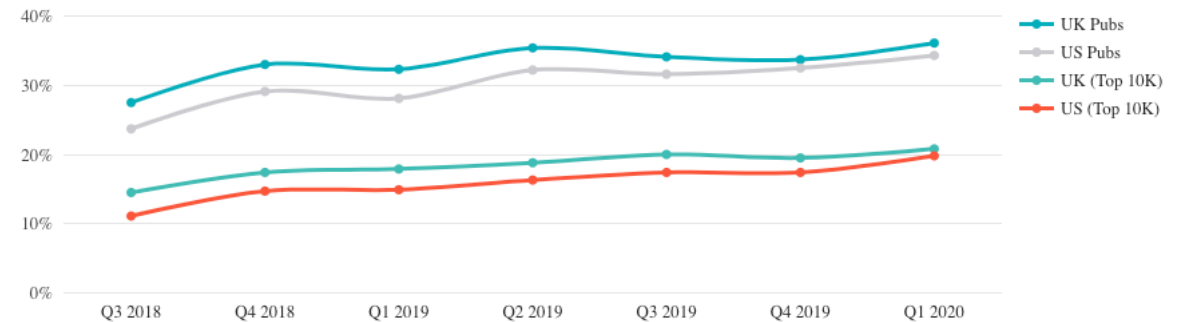

Unambiguous: There is no question that you have given your answer

OneTrust

CrownPeak

CookieBot

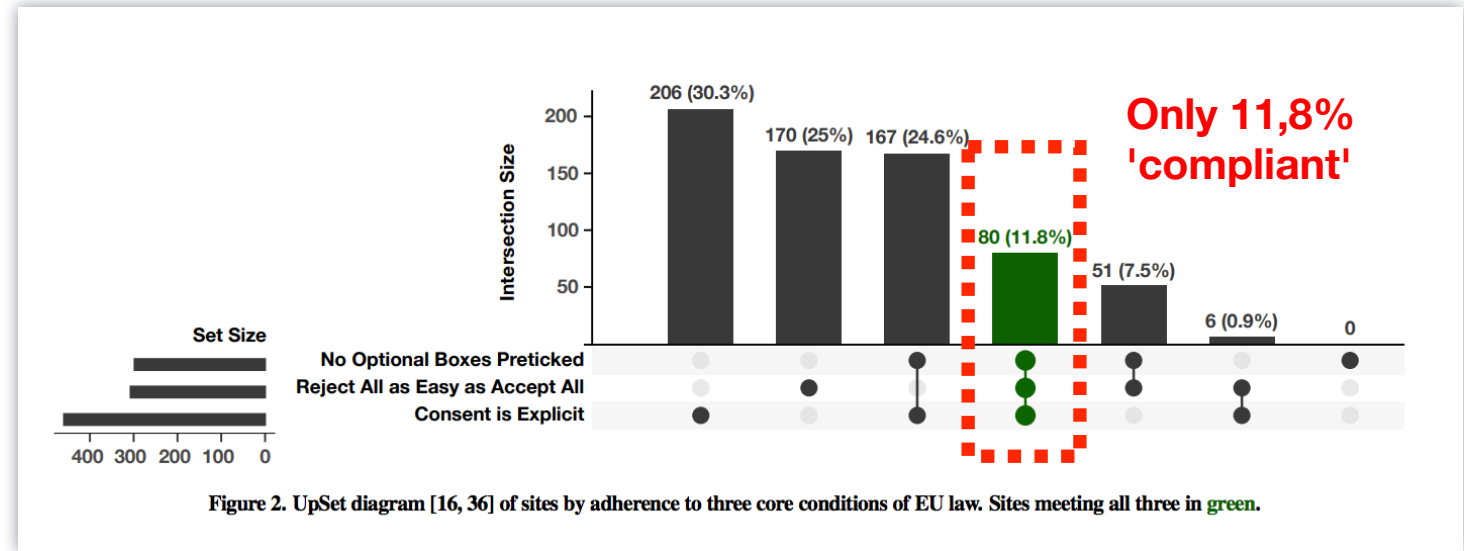

Quantcast

TrustArc

LARGE SCALE NON-COMPLIANCE

1. No optional boxes preticked
2. Reject all as easy as Accept all
3. Consent is explicit

CMP	Sites	Median vendors (low./upp. quartiles)	Explicit/implicit consent	Banner/barrier	Preticked options	Minimum compliance
Cookiebot	12.5% (85)	104 (61, 232)	45/40	78/7	64 (75.3%)	2 (5.6%)
Crownpeak	12.2% (83)	38.5 (18.8, 132.3)	46/37	52/31	67 (80.7%)	0 (0%)
OneTrust	24.3% (165)	58 (26.5, 104.5)	47/118	158/7	108 (65.4%)	3 (1.8%)
QuantCast	41% (279)	542 (542, 542)	279/0	132/147	90 (32.3%)	73 (26.2%)
TrustArc	10% (68)	87 (38, 152)	42/26	26/42	53 (77.9%)	2 (2.9%)
all	680	315 (58, 542)	459/221	446/234	382 (56.2%)	80 (11.8%)

Table 1. Key statistics on scraped CMPs.

MAIN TAKEAWAYS

- Tracking is more than just cookies, but relies on a broad suite of technologies
- Implementing these technologies is easy, but difficult to understand
- Individual countermeasures are laborious and ineffective
- Regulation already exists; widespread non-compliance in surveillance industry
- Enforcement and competition law are the key battlegrounds
